

Super-Star Status

Monday, 10 September 2007

I want to dedicate this article to one man who will be remembered forever. A man who knew the true meaning of Powerful Presence and living with Total Passion and Commitment to his craft. A man who had Super Star Status in the Opera as well as the Pop music world!

A man who in his career of almost 50 years as a singer and a devoted musician managed to capture the hearts and imaginations of so many.

Luciano Pavarotti! He sadly passed away last Thursday. I felt a the pang in my heart when I heard the news. Anyone who has ever listened to the voice of Pavarotti knows that it resonates deep inside... with me it does...

Garin (my husband) told me of the unbelievably Powerful and Magnetic Presence Pavarotti radiated when he came to give a Master Class at the San Francisco Conservatory of Music where Garin was studying at the time.

He told me that on stage that day, Pavarotti was not an overbearing and boisterous man, he did not feel the need to prove himself as a master, but in stead had a calm and all encompassing Confidence and Presence that captured the attention and wonder of everyone he came in contact with.

This was evident when he was on stage - a big man he was with a big, magically enchanting voice, but more than that - here was a man who had true Pizzazz!

Let's face it - there are many magnificent voices out there, voices that might never be heard... because just having a great voice is not enough!

It was said about Pavarotti that "He was more than just a voice - He had Charisma. There are plenty of good singers, but he had something more!"

Pavarotti also started from humble beginnings. Not many people know that he began as a teacher, and had failed as a salesman long before he found his calling as a singer.

He had to work his way through his insecurities and cultivate the now well-known presence and fame of a world-class performer! It didn't just come naturally to him... he wasn't born with this charm and Powerful Presence. He made effort - he worked at it... just like everybody needs to work at it!

It is a total misconception that anyone who becomes famous did so overnight... virtually anyone who is known for their talents, poise and charisma had to put some amount of effort into developing their image - the Powerful and Magnetic image that allows them to stand out above the crowd.

Luciano Pavarotti lived with Passion, Commitment and Drive. His sincerity and passion as a man shone through when he was on stage. But not only on stage - it was so clear in his voice... his passion, drive and charisma can clearly be heard in his voice when he sang... and

many say even when he spoke.

You may say... but I am not a singer, or an actor, or an acrobat or dancer - but no matter what it is... you have your own special talents. You just need to come out and realize it - live your life with passion and drive!

There is a Pavarotti in you too... someone who has much to offer the world if only you have the courage to go after it. If you have the courage to get out there with the Powerful Presence that resides within you.

When it comes to standing out, to being remembered, to making a lasting impression - you need more than just a great voice or a pretty face or the body of a model or movie star... you can have all those things and still not have the Pizzazz Factor. You need that "something extra", that charisma and Magnetic Presence.

With the Pizzazz Factor I show you how to achieve this... you do not necessarily need to be born with it. A Powerful presence is not a talent, but a skill - a skill that can be acquired.

With some knowledge and awareness you can also have what it takes to be a charismatic and magnetic person!

Pavarotti knew the art of Magnetic Presence, he knew that it took more than just talent to be a star... to be adored and admired.... and he was!

What an amazing Voice, what an amazing Talent, What an amazing Man!

Luciano Pavarotti (1935-2007)

Kind Regards

Vanessa Bader

P.S. Luciano Pavarotti will be missed by many, but his Passion and Charisma will live on in the music!
